

ADAPTER & SERVICE HOSE KIT

A comprehensive DILO Adapter & Service Hose Kit with both DN8 & DN20 connections. Consisting of 110 different pieces! With +50 different types of valves, unions, and adapters! This kit allows users to create a variety of emission-free SF₆ gas handling connections, inspect for leaks, filter particulates, and verify pressures safely. It is the perfect complement for all L-Series & B-Series DILO gas handling systems. Its compact size allows storing it in any DILO L-Series ProGen or ProSeries Trailers.

**Note: the kit does NOT replace the DN8 Testing and Filling kit or DN20-40 Adapter kits – it compliments them!! The DILO Adapter & Service Hose Kit does not include “breaker adapters” in the kit*

Features

- DILO DN8 & DN20 self-sealing adapters
- Tee-pieces and elbow connections (DILO DN8 & DN20)
- SF6 bottle connections w/ ball valves (with DILO Dn8 & DN20)
- DILO DN8 & DN20 particle filters
- DILO DN8 & DN20 self-sealing male & female metal caps
- DILO DN8 & DN20 vacuum equalization valves with particle filters
- DILO DN8 adapter for measuring device
- Spare plastic caps (DILO DN8 & DN20)
- Spare O-rings

Levels:

All kits also include:

- Transport case with wheels
- Case includes 4 levels of custom foam inserts, with extra storage space!
- Handy cylinder safety ratchet straps
- DILO Safety Glasses
- Printed datasheet
- Self-laminating field service tags to label gas-handling events
- Service Wrenches (set of eleven) to tighten a variety of different-size connections
- Operations Training: (Qty. 1) - DILO LIVE - Virtual Equipment Training/Demonstration via video conference

This kit pairs well with DILO's DN8 & DN20 Adapter Kits!
